About Me

Computer science student who passionate in data science and software engineering but also seeking different experiences in other aspects of life.

Experience

EFG HERMES

Machine Learning Engineer Intern (FEB 2023 - MAR 2023)

- Introduced to neural networks and deep learning through "Dive into deep learning" book.
- Introduced to computer vision and image processing techniques.

EFG HERMES

Machine Learning Engineer Intern (SEP 2022 - OCT 2022)

- Revised some mathematical concepts in Linear algebra and Multivariable Calculus.
- Introduced to new techniques in machine learning and data analysis.
- Worked on time series analysis project.

LOGICAL TECHNOLOGY SOLUTIONS

Survey agent associate (FEB 2022 - AUG 2022)

- Performing outbound calls to the clients who stayed at IHG hotels in USA to make surveys with them and initiate a sales operation.

Education

2020 - 2024

Ain Shams university

**Computer Science
undergraduate**

GPA : 3.1

Third year at Scientific Computing department.

Skills

- Python
- C++
- C#
- SQL
- Java
- Data cleaning
- Data preprocessing
- Problem solving
- Communication
- Presentation
- Leadership

Projects

- **Megastore profit prediction**
Machine Learning course
- **Simplified AirBNB**
Data Structures course
- **Graduation projects management system**
Software Engineering course
